- Installing FactoryTalk AssetCentre Software
- Installing the FactoryTalk AssetCentre Client Remotely
- FactoryTalk AssetCentre Audits
- FactoryTalk AssetCentre Disaster Recovery
- FactoryTalk AssetCentre Archive
- FactoryTalk AssetCentre Searches
- FactoryTalk AssetCentre Address Book and E-mail Notification
- Appendix: Windows 2003 Email Server Installation and Configuration

COURSE NUMBER: RS-FTACC

Course Purpose

FactoryTalk® AssetCentre software provides you with a set of asset-centric focused tools to securely and centrally manage your factory and process automation production environments. FactoryTalk AssetCentre helps you secure access to the control system, track users' actions, manage asset configuration files, configure process instruments and provide backup and recovery of operating asset configurations.

This course provides you with the skills to use FactoryTalk AssetCentre software to maximize your investment and manage assets effectively. In this course you will have the opportunity to load the software and practice many critical tasks, such as:

- Implementing disaster recovery (continuation planning)
- Tracking user actions
- Improving plant-floor security
- Protecting intellectual property

Who Should Attend

Individuals who need to securely and centrally manage factory and process automation production environments should attend this course.

Prerequisites

To successfully complete this course, the following prerequisites are required:

- Basic Microsoft Windows skills

AND

- Knowledge of your production environment (recommended)

Technology Requirements

All technology is provided for student use in the classroom by Rockwell Automation. It is not necessary for students to bring any technology with them when attending this course.

Student Materials

To enhance and facilitate your learning experience, the following materials are provided as part of the course package:

- Student Manual, which contains the key concepts, definitions, and examples presented in the course and includes the hands-on exercises.

Hands-On Practice

Throughout this course, you will have the opportunity to practice the skills you have learned through a variety of hands-on exercises. These exercises focus on the skills introduced in each lesson.

Course Length

This is a two-day course.

Course Number

The course number is RS-FTACC

To Register

To register for this or any other Rockwell Automation training course, contact your local authorized Allen-Bradley Distributor or your local Sales/Support office for a complete listing of courses, descriptions, prices, and schedules.
